Short Description

Here is a cool drippy heart with a few droplets of color. It's perched on a live edge walnut backer and features a honeycomb hanger for to make installation a snap!

Description

I like the grain flow and the fluidity of this revealed grain heart. The heart is colored with a water based dye and walnut was used as the backer featuring a live edge . Theres a honeycomb / bee style hanger on the back for super easy installation.... Like super easy, takes seconds to have it on your wall!

The heart is about 8"x 6" and the backer sits at 10" tall x 8-11" wide (live edge)
